

GRATIS-CD: Orgelmusik aus England und Amerika

The "Organ music from England and America" series of publications revives older, out-of-print organ pieces in practical and modern new editions and presents selected works by contemporary composers from these countries.

The unique and much appreciated sonority of the organ music from England and America finds expression both in smaller liturgical works and in larger-scale concert literature.

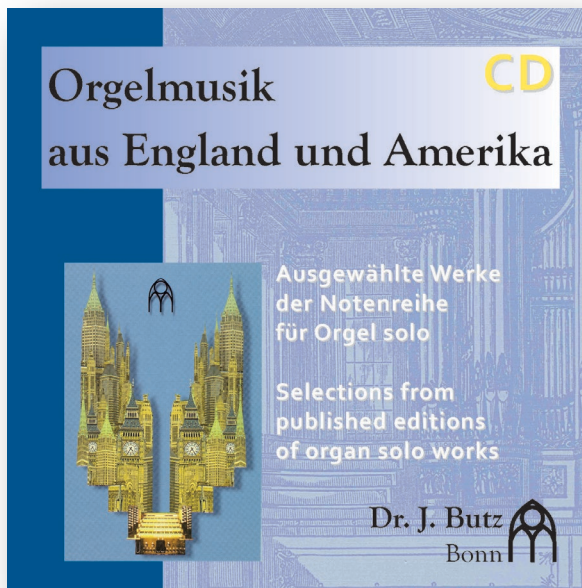

Butz-Verlag's successful series has done much to make this music and its composers known and popular in the countries of central Europe today.

This CD offers a representative selection in terms of form, period and length of the pieces in the volumes published so far.

Organ music from England and America – The volumes

Series Editor: Prof. Johannes Geffert

Brewer, Herbert	Orgelwerke	[BU 1680]
